

Global Warming Prevention Activity

Create a global warming prevention campaign.

- Break into groups (2 or 3 in each group)
- Devise a plan for your community to make them aware of global warning.
 - Describe your action plan for what can be done to stop global warming.
 - Include a measurable goal that will allow you to calculate the amount of positive change you have made.

 - Include a measurable goal that will allow you to calculate the amount of positive change you have made.

Answers will vary.

Action: Ask people to pledge to reduce the number of miles they drive each week.

Goal: Reduce the number of miles driven by 100 pledged miles per week.

Action: Organize an effort to plant more trees.

Goal: Plant 150 trees at a local park.
