

Homework 2

- Watch the movie “An Inconvenient Truth” (Available on YouTube, Amazon, Showtime, etc.)
- The homework 3 assignment is to write a 2-3 page (single spaced) about the following:
- Briefly describe/summarize 10 arguments made in the movie that human-induced climate change is happening and is important
- Which of the arguments did you find the most convincing that the climate is changing because of human induced? Explain why.
- What argument concerning global warming did you disagree with or find the least convincing?
- Identify and discuss the issue presented in the movie that concerned you the most.
- Identify and discuss some aspect of climate that might be improved with global warming.
- Discuss an action you believe we should be taking to mitigate global warming and explain why, **OR**, if you don't think any changes should be made now, explain why.
